

Controls on Exports of Green List Waste to non-OECD Countries – an Update.

The current regulation (1418/2007/EC) providing control measures for the export of green list waste came into force on 29 November 2007. This regulation was amended in July 2008 by the regulation EC 740/2008, in October 2009 by EC 967/2009 and in September 2010 by EC 837/2010 .

Responses have been received for Algeria, Andorra³, Argentina, Bangladesh, Belarus, Botswana, Bosnia and Herzegovina¹, Brazil, Chile, China³, Chinese Taipei, Costa Rica, Croatia³, Cuba, Egypt, Georgia, Guyana, Hong Kong², India³, Indonesia², Iran¹, Israel, Ivory Coast (Cote d'Ivoire)¹, Kenya, Kyrgyzstan, Lebanon, Liberia³, Macau, Malawi, Mali, Malaysia¹, Moldova¹, Montenegro², Morocco, Nepal², Oman, Pakistan, Paraguay, Peru, Philippines, Russian Federation¹, Serbia², Seychelles, Singapore², South Africa, Sri Lanka, Thailand, Togo¹, Tunisia, Ukraine^{1,2} and Vietnam.

To assist exporters of green list waste, we have produced a summary table setting out the controls required for the export of key waste streams to the main export destinations. The table also highlights changes in the type of control specified. Where a response has not been received from a country of destination notification controls will apply.

Information on the requirements of other countries of destination or for other waste streams can be obtained from the International Waste Shipments team (Tel: 01925 542265).

Key:

| | |
|---|--|
| P | Prohibited |
| N | Written notification and consent |
| G | Green list controls using the Annex VII form |
| L | Green list controls using the Annex VII form & local import controls must be observed. |

² Waste wire and motor scrap only

³ Unbleached paper or paperboard, or corrugated paper, other paper and paperboard made mainly of bleached chemical pulp only

⁴ Unsorted paper scrap only

⁵ Worn clothing and other worn textile articles

⁶ Wool waste, cotton waste, synthetic and artificial fibres

⁷ Cork waste: crushed, granulated or ground cork.
